

FEATURES

South-Tek's Quick-Fill Compressor is designed for efficiency and quickly fills up to 635 gallons within 30 minutes (0-40 PSI).

- | To be utilized only for the sprinkler pipe quick-fill operation. Not intended to be used as a constant means of maintaining supervisory pressure.
- | 2 HP piston, oil-less
- | Compressed air flow output of 8 SCFM at 40 PSI

UNIT DETAILS

Quick-Fill Compressor	
Part Number	
STS-NF-QF-2	
Dimensions	
A (Width)	18.0"
B (Depth)	12.0"
C (Height)	14.57"
Air Compressor Weight	50 lbs.
Unit Details	
Accumulator Tank	N/A
Horsepower	2 hp
SCFM	8.0
Min. Working Pressure	60 PSI
Zone Capacity Filled within 30 Min. (40 PSI)	635 gal.
Air Compressor Electric	120V / 1 Phase / 15 Amps 240V / 1 Phase / 7.5 Amps
Warranty	One Year ¹

1. Per Manufacturer's Terms & Conditions.
